EDUCATION

CONNECTICUT COLLEGE , New London, CT	Bachelor of Arts Awarded May 2026
Double Major: Economics and Computer Science	GPA 3.41
Relevant Coursework: Econometrics, Statistics, Database Systems, Behavioral Finance, Data Visualization, Algorithms, Data Structures, Algorithmic Game Theory.	

TECHNICAL SKILLS

Languages:	Python, SQL, Java, JavaScript, R, HTML/CSS, Ruby
Databases:	MySQL, PostgreSQL (basic)
Tools & Technologies:	Excel, Flask, React, Node.js, Ruby on Rails, Git/GitHub, REST APIs, JSON, NumPy, Matplotlib, D3.js, NetworkX

RELEVANT EXPERIENCE

Travel Recommendation Research Platform <i>Python, SQL, Flask</i>	New London, CT
<i>Independent Research</i>	Jan. 2026 – May 2026
- Developed a Flask travel recommendation platform comparing LLM-assisted and constraint-based strategies - Designed user testing with 30+ participants and 18 controlled benchmarks to compare recommendation outputs - Stored, queried, and processed experiment data using SQL and Python to measure alignment, stability, and usability - Identified tradeoffs between algorithmic simplicity, personalization complexity and usability to inform system improvements	
Sparse Interaction Graphs for Trend Monitoring <i>Python, SQL, NetworkX</i>	New London CT
<i>Independent Research</i>	Aug. 2025 – Dec. 2025
- Built data ingestion pipelines to convert large Reddit comment datasets into structured interaction networks - Applied similarity metrics and network analysis to detect behavioral overlap, influence hubs, and interaction patterns - Processed and structured large scale text data to support behavioral trend analysis across mental health communities - Improved visibility into online interaction trends for future behavioral research and intervention analysis	
SoundWaters	Stamford, CT
<i>Research Intern</i>	Jun. 2022 – Aug. 2024
- Analyzed environmental, program, and operational datasets using Python and SQL - Identified trends to inform resource allocation for plastic removal, pH testing, and runoff investigations - Cleaned, validated, and organized structured datasets to improve accuracy and reporting quality - Delivered statistical reports and visual analyses summarizing findings and model outputs	
Retail Inventory & KPI Analytics System <i>Python, SQL</i>	New London CT
<i>Database Systems Course</i>	Aug. 2024 – Dec. 2025
- Designed normalized relational schemas for customers, products, orders, warehouses and inventory workflows - Wrote analytical SQL queries to monitor trends, inventory performance, and reorder thresholds - Automated KPI reporting with Python to surface inventory risks, operations bottlenecks, and product performance trends	

ADDITIONAL EXPERIENCE

Landscaping Operations	Stamford, CT
<i>Operation & Client Assistant</i>	Jun. 2025 – Aug. 2025
- Coordinated scheduling, client communication and project planning for residential and commercial landscaping services. - Served as the primary English-speaking point of contact for clients, translated project requirements. - Managed and built customer relationships through engagement. - Assisted with invoicing, equipment purchasing and day-to-day operations. - Contributed to projects that generated over \$15,000 in seasonal revenue.	

LEADERSHIP EXPERIENCE

<i>Treasurer</i>	CC Consulting Club , Connecticut College	Nov. 2025 – May. 2026
<i>Econometrics TA</i>	Economics Department , Connecticut College	Jan. 2026 – May. 2026
<i>Member</i>	Club Soccer , Connecticut College	Sept. 2023 – May. 2026
<i>Lead Code Instructor</i>	HappyCode , Stamford, CT	Jun. 2022 – Aug. 2022
